## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 - 17, drawn to a method of manufacturing a part, classified in class 264, subclass 141.
  - II. Claims 18 - 28, drawn to a plastics material section, classified in class 428, subclass 131.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I, claims 1 - 17 and Group II, claims 18 - 28 are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as forming an opening in the part by drilling or cutting a hole at the desired location.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, different modes of operation, different functions, different effects and their divergent subject matter, restriction for examination purposes

Art Unit: 1772

4. A telephone call was made to Jay Finkelstein on December 2, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
